3. Skill gap analysis

Technical Skills

Skill	Required	Your Level	Status	Suggested Action
Video creation and editing software	Intermediate	Beginner	Needs Development	Consider starting with free tutorials and introductory courses
Web page creation and editing software	Intermediate	Intermediate	On Track	Continue building on this strength

Graphics or photo imaging software	Intermediate	Beginner	Needs Development	Consider starting with free tutorials and introductory courses
Presentation software	Intermediate	Beginner	Needs Development	Consider starting with free tutorials and introductory courses

For technical skill gaps, you might explore free resources on YouTube and freeCodeCamp first, then consider structured courses on Coursera or edX as your learning progresses within your 6 months timeline.

Soft Skills

Skill	Required	Your Level	Status	Suggested Action
Writing	Basic	Intermediate	On Track	Continue applying this strength in your work
Reading Comprehension	Basic	Advanced	On Track	Continue applying this strength in your work
Active Listening	Basic	Intermediate	On Track	Continue applying this strength in your work
Speaking	Basic	Intermediate	On Track	Continue applying this strength in your work

A note on soft skills: Many interpersonal and leadership skills develop most effectively through hands-on experience, mentoring, and real-world practice rather than formal coursework alone. While workshops and online resources can provide frameworks and techniques, the depth of these skills often comes from consistently applying them in professional settings. Consider seeking out projects, volunteer roles, or workplace opportunities that let you practice these skills regularly.

4. Development timeline

Estimated timeline: 6 months

Step 01: Priority 1

Develop Video creation and editing software (currently: beginner, required: Intermediate)

Step 02: Priority 2
